Travel immunisations

We offer a full range of travel vaccinations.
Our practice nurse will provide you with detailed information depending on your travel itinerary.
Please make an appointment, allowing plenty of time before you travel because some courses of vaccines must be done over a period of weeks.

Private patients will be charged a small fee for each visit in addition to the cost of the vaccine.

NHS patients should note that we provide travel advice, and administration of immunisations, free of charge however many travel vaccines are not covered by the NHS and these vaccines will be charged for. They include:

Tick Borne encephalitis
Japanese encephalitis
Rabies
Hep B
